# EPUBLICAN CANDIDATE FOR

## WM. P. CANADAY. William P. Canaday is the Republican candidate for Congress. A vote

for him is a vote to sustain your party, your country, and your interest. A vote for the Greenback-Democratic party, is a vote for Waddell. Russell candidate for Congress.

The Greenback-Democratic party frated Judge Russell who has left the Republican party, so he declares, forever. They started this Demration for the purpose of ing the Republican party, and destroying the Republican thinking that was the proper course to pursue. It remains to be seen whether the Republicans will follow a man after he turns traitor to his old party, and to the party that has honored him with the highest place in the party's gift.

Judge Daniel L. Russell, in a speech delived at Smithville on the 30th September, declared that he "had left the Republican party." So our Republican friends may know that a vote for this Greenback-Democratic candidate, Dariel L. Russell, is a vote against the interest of the Republican party Our friends must take warning. Should a Republican be fool enough to follow Judge Russell, he will be lead into the Democratic party. A vote for Russell is equal to a vote for Waddell. Both of them are opposed to the Republican party.

Those gentlemen who do the leading elitorial writing of the New York Times still maintain their lofty ignorance of the state of southern politics. They know so much more than anybody else on these affairs, and all affairs, that nothing quite suits them. They have yet to learn that the principal political question in southern affaire is a radical reform on all matters relating to the rights of men, and that those questions are superior to all others. These writers know so much that it is impossible to teach them anything. As Moliere said, they can "talk unintelligibly on things of which they are ignorant" well enough. If it had chanced that these writers had been present at the creation, they undoubtedly would not have hesitated to advise the Creator to modify his plans as the Democratic managers in New small globe like ours.

weight. But it is significant that all over the country there is evasion if not absolute denial of the anthenticity of these translations of the cipher.

The New York Tribune has, for sometime past, been preparing and administering it to its readers in the form of alleged Democratic cipher dispatche and pretended translations. Hithere the doses have been small, but now that its reader's stomach is supposed to be fully prepared, the Tribune has commenced to administer heroic quantities. Monday the first dose was given, accompanied by an extensive formula in which the Tribune succeeded admirably in convincing the tattent that it had, after very hard work, devised a convenient system whereby the alleged dispatches may be so translated as to convey the meaning the Tribune would put upon them. As the existence of knaves implies the avistence of dupes, there is no doubt the Tribune's cipher flap-doodle will not want consumers for doses have been small, but no and that is No. 15 Gramercy Park. Mile. R , a French nup, attached to the Hospital of the Santo Spirito, in Rome, has eloped under romantic cir-cumstances. She entered the order at the age of 15, and in August last was sent to wait on the sick in the hospital. Her youth and beauty soon attracted the attention of the doctors; the Lady compliments addressed to her, and had more than one occasion to reprimate her. This only irritated the young nun, and caused her to become diagnated with her life. "I cannot remain here," she said; "I am resolved to recover my liberty." About 10 in the evening, two weeks ago, the gate reoper at the hospital was awakened by a woman dressed all in block, who wished to go out, showing a pass signed by the empliments addressed to her, and had to go out, showing a pass signed by the house doctor. He at first refused, as this was not sufficient; but he allowed himself to be persuaded. A carriage had been waiting near for an hour and a half. The woman, who was no other than Sister R., entered the vehicle, in which a man was already scated, and they were driven off rapidly.—N. Y. Tribune.

Very seen the Beturning Board voted by revolutions of the printing press.

Every man not too lazy to gather free dollars into a pile was to be made rich by act of Googress. At first the scheme worked to a charm. The whole people was rich. Money was easy and every body had enough. The currency con sisted of treasury notes, which were issued in unlimited quantities. Money was so easily got, and its value so wholly uncertain, it at so one could determine what was a air price for anything. People got int, the habit of paying whatever was a ked, knowing that by, to-morrow they would have to pay more. The paper was known to be worthless, yet it continued to circulate. It was "absolutely fiat money," and as such the people took it in payment for goods. The effect, as described by Mr. Eggleston, was at once frightful and ludicrous. "The prices which obtained were almost fabulous, and singularly enough there seemed to be no sort of ratio existing between the values of different articles. I bought coffee at \$40 and tea at \$30 a pound on the same day. My dinner at a hotel cost me \$20, while \$5 gained me a seat in the drescircle of the theatre. I paid \$1 the next morning for a copy of the Kenminser, but I might have got the Whig, Dispatch, Enquirer, or Sentinel, for half the sum. For some wretched tallow candles I paid \$10 a pound." was so easily got, and its value

SUNDAY MORNING, OCT. 20, 1878.

"When I travel by rail," said an em ment divine on the Victoria platform, the other day. "I select a first class carriage in the middle of the train. I enter the middle compartment of that carriage, and I take the middle seat in that compartment—In medio tuties into that compartment—In medio tuties into this—and I leave the rest to Providence." "It strikes me he leaves procious little to Providence." said an eminent descrindant of Mr. Toodles, sotto voce, who hapwened to be standing by.—London World...

In the rapid pace to which many of us ure our powers for the attainment of our objects, mental prostration and loss of sleep are common. Dz. HARTEN'S IRON TOKIO never fails to give ease in these and kindred maladies. 2t

Females, and men of sedentary hab-its, are peculiarly liable to Dyspersia and derangements of the digestive organs. Dr. HARTER'S ELIXIR OF WILD CHERRY has no rival in the removal of every form of indigestion.

## An Cudeniable Truth.

You deserve to miffer, and if you lead a miserable, unsatisfac ony life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, &c. Its eales now reach every town on the Western Continent and not a druggist but will tell you of its wonderful cures. You can buy a vam-ple bottle for ten cents. Three duces will relieve you.

It is a principle in hygienics that a torpid liver is a cause of fatal deraugements of the physical organism. The blood, the bone, the muscles, the nerves all sympathize with this more prominent organ. Failure to obey its functions in the one is rebellion in every remote tissue. As a consequence, disease follows the slightest\_apathy or refusal of the liver to perform its part.
Abnormal condition here for any length of time is death. Tolinduce a normal state, no medicine is more positively adapted than Dr. Sauford's Liver Invi-gorator. This is not advertisement, but fact. We have used the Doctor's valuable medicine in our family for twenty years. We know him to be a physician of over thirty years' continuous prac-tice, and that he has used the medicine in that practice. If the thomsands of poor, miserable, asilow, tooking, dyspep-tic victims we meet every day would use Dr. Sanford's Liver Invigorator, they would recover health. What Church, New York.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century; is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it acknowledge its superiority; and where its virtues are known, no one hesitate as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. What did Daniel L. Russell, the nee of the Greenback-Democratic Convention mean when he stated that if he could not defeat both the other candidates for Congress he could defeat one of them?

What did one of the prominent white delegates, at the Greenback Convention mean in stating, when asked by a prominent Democrat, if he did not consider the crowd rather shady, replied that he expected to bring the greenback strength from the shady side?

Republeans now understand why Judge Russell so persistently worked to have James Heaton, the late Republican Clerk of the Superior Court removed from office, and a democrat appointed in his stead. It was simply to pave the way into the loco-foco party, that however was not enough work for them, he must now try it on a little more, and assist in the election of the democratic nominee for Congress.

What did Daniel L. Russell mean in his speech at the Greenback-Democratic Nominating Convention, when he said: "That as the representative of the laboring men, he was a right good fraud, as he had never done a days work with his hands in his life, and if compelled to do manual labor he would go into a community where the people were not acquainted with him to keep them from laughing at him?" Did he mean to say that labor is dishonorable?

M. M. Pomeroy, or Brick Pomeroy, as he is commonly called, is the man who declared in 1868 that negroes and monkey's both belonged together; and that monkey's and baboons should be allowed the same privilage as the colof the Greenback-Democratic organiof the Greenback-Democratic organithe same

This ser apatina is a combination of the vetadue are ratives—stilling in. Mandauxe. Yellow Dock—with the Iodides of Preassium and Iron, and is the most effections medicine yet known for the diseases it is intended to cure. Its ingredients are so skilfully combined that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still to effectual as to purre out from the system those impurities and corruptions which develop into loathsome disease.

The reputation is enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it proves their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constants their being the constants.
